

5th Toyama International Student Prefectural Scholarship Guidelines for Application

In partnership with Kazumi Seisakusyo Co. Ltd., Toyama Prefecture is currently looking for a Thai International student who would be interested in completing graduate studies (Master's degree) in Toyama Prefecture and being employed at Kazumi Seisakusyo Co. Ltd.

1 - Requirements and Conditions

(1) Nationality

The applicant must hold Thai nationality, and must reside in Thailand at the time of application.

(2) Age

The applicant must be born on or after April 2nd 1990.

(3) Education

The applicant must meet the one of the following requirements:

- a) Have graduated from a Japanese university, or;
- b) Have completed, outside of Japan, 16 years of formal education. (This includes people planning on graduating in June 2020)
- c) Had completed, outside of Japan, 3 or more years of study/research, and have received a degree equivalent to bachelors (however some universities in Toyama may have an eligibility examination for acceptance).

(4) Specialization

Specialization fields: Engineering

The applicant's selected field must be related to the specialization done in undergraduate studies, and must be a field that can be further studied in a Graduate School within the Prefecture. (For accepted graduate schools and programs, see page 6 of present document.)

(5) Health

The applicant must be mentally and physically healthy.

(6) Japanese Language Proficiency

Not required. However, the applicant must have interest in learning Japanese, and must be able to make basic conversations (Japanese Language Proficiency Test level N2) by the time of graduation.

(7) Arrival in Japan

In principle, the applicant should be available to come to Japan by the day

determined by the Governor between September and October of 2020.

(8) Prospective Employment

The applicant must be willing to pledge that, upon completion of their studies at graduate school, they will apply to the hiring process of Kazumi Seisakusyo Co. Ltd. The place of employment will be either within Toyama Prefecture or at the subsidiary in Thailand.

(9) Internship

During his or her studies, the applicant will participate in an internship at Kazumi Seisakusyo Co. Ltd.

(10) Others

The applicant may not receive any other scholarship or grants.

2 - Number of scholarships

There is one (1) scholarship available for one (1) participant.

3 - Details of the scholarship

Within the limits of the budget, the scholarship provides for the following expenses, from the day of arrival in Japan until the day of conclusion of studies.

(1) Living expenses: 170,000 yen per month (rent expenses included). However, if the student leaves Japan for over 30 consecutive days or if the student fails to attend classes for a long period or otherwise takes a leave of absence from school, payment may be stopped during this interval.

(2) Travel expenses

a) Coming to Japan

The airplane ticket fare from the international airport closest to the student's residence in Thai to Japan, economic class, as well as the travel expenses from the airport in Japan to Toyama are included.

b) Returning home

Cost of returning home is generally not included.

(3) Tuition fees : Entrance examination fees, Admission fees, Course fees and Insurances (National Health Care, Accident Insurance)

(4) Payment period

The scholarship includes payment for the period of six (6) months as a trainee student and the two years of study as a graduate student for a maximum of two (2) years and six (6) months. No extension will be accepted.

The Prefecture reserves the right to terminate scholarship in the following

situations:

- a) If the application contains any false statement;
- b) If the student fails to comply with the statements in the Written Pledge;
- c) If the student commits an act against the law in Japan;
- d) If the university has taken disciplinary action against the student, such as but not limited to expulsion. (Scholarship payment may be stopped before said action is effective.)
- e) If, due to poor results or temporary break of study, the student is deemed to be unable to complete their degree in the length of time specified above.
- f) If the student's residency status is changed from "International Student" to a different residency status.
- g) If the student receives a different scholarship (except for specific research funds).
- h) If, for other reasons, Toyama Prefecture or Kazumi Seisakusyo Co. Ltd. determines that the applicant is unsuitable as a scholarship student.

4 - Application Process

The applicant must submit a complete set of the following documents, before the deadline and to the address specified by Toyama Prefecture. No submitted documents will be returned. Incomplete or late applications will not be considered.

The required documents are:

- a) International Student Application Form, with a picture attached. (Form #1)
- b) Specialization, Research Plan and Placement Application Form (Form #2)
- c) Written Pledge (Form #3)
- d) Medical Certificate (Form #4)
- e) Final Grades of Graduated University
- f) Final Diploma of Graduated University or Certificate of Degree Completion
- g) Letter of Recommendation from Graduated University's Dean or Responsible Professor
- h) Graduation Thesis (Only applicants that have written such a thesis)
- i) Copy of Passport

Caution:

1. All documents must be submitted either in Japanese or in English, or be provided with a translation in either Japanese or English.
2. All pictures submitted must have been taken within the last six months upon application, and their size must be of 4.5 cm by 3.5 cm, showing the upper body,

full-faced, and without any covering on the head. Also, on the reverse of each picture, the name and nationality must be written. Paper copies are not accepted. (Self-printed pictures are not accepted)

3. Your Specialization and Research Plan Form must offer a concrete and detailed plan of your expected research.
4. The Grades Report must describe the course title for grades received during each year of study in your faculty or graduate program, as applicable, and must also detail the final grade or completion status for credits acquired. (For example, you cannot substitute it for a document simply listing your rank upon graduation or your diploma.)
5. Regarding your diploma or certificate of degree completion, you may substitute a copy. However, the copy must be attested to by the appropriate authorities of the university having produced the document.
6. A graduation thesis, etc. is not necessary for application, but will be used to assess academic skill if available.

5 - Application submission

Submit your application **by mail** to the following address:

Lighthouse Info Service Co.,Ltd. (JEDUCATION)
2 Jasmine City Bidg. 27th Fl.Sukhumvit Rd.Soi 23 Wattana,
Bangkok 10110 Thailand

6 - Application deadline

The deadline to apply to this scholarship is February, 7th, 2020 (Fri).

7 - Selection and Communication of Results

- (1) A first round of selection will be conducted on the basis of the applications received.
- (2) A second round of selection, by interview, will be conducted with participants selected in the first round to determine the final scholarship recipient. The interview will be conducted in Thai, but Japanese ability will also be tested.

8 - Placement and Research Direction

- (1) The consultations regarding the placement of the selected applicant by the Toyama Prefecture will be based upon the first then second university preferences written on the Specialization, Research Plan and Placement Application Form, and if possible will be granted. However, it is possible that the placement may differ from the preferences expressed; there is no appeal process for the placement.

- (2) Research guidance, classes, experiments and studies will, as a general rule, be conducted in Japanese. Furthermore, high level practical English is a required course at the Toyama Prefectural University Graduate School of Engineering.
- (3) Do not contact the university directly if you have questions about it.

9 - Application Schedule (Planned)

- (1) Mar. – May. 2020 Document screenings, interviews
- (2) June 2020 Applicant selection, notification of results, admission procedures
- (3) Jul. – Aug. 2020 Immigration procedures
- (4) October 2020 Arrival in Japan (Admission as a trainee student)
- (5) December 2020 – Feb. 2021 Admission examination for Master’s program
- (6) April 2021 Admission to Master’s program (If the participant does not succeed at the entrance examination, the participant shall return in March 2021, and the scholarship will be cut on the month after the announcement of the examination results.)
Internship, etc. with Kazumi Seisakusyo Co. Ltd. during studies
- (7) March 2023 Completion of Master’s Degree
- (8) April 2023 Start of work at Kazumi Seisakusyo Co. Ltd. after successful completion of hiring process.

10 - Other

- (1) The recipient of the scholarship will report by paper on the progress of his studies and research and his grades as determined by the Governor and Kazumi Seisakusyo Co. Ltd. Also, the recipient shall proactively cooperate in the activities of Kazumi Seisakusyo Co. Ltd. and Toyama Prefecture.
- (2) Besides the requirements listed in this document, the relevant articles of the Toyama International Student Prefectural Scholarship Program apply as specified by Toyama Prefecture.
- (3) If there are inquires or questions regarding the contents of the present document, the applicant will contact the Toyama Prefectural Scholarship Coordinator, and follow their instructions.

Information on the corporation supporting this scholarship

Name	Kazumi Seisakusyo Co., Ltd. (株式会社加積製作所)
Location	195 Shiba, Namerikawa City, Toyama Prefecture
Number of Employees	46
Capital	30,909,000 yen
Sector	Industry: Metalworking Company Outline: Designs, manufactures, and sells purified water chillers and panel radiators for electric transformers used by power utilities in electrical substations.
Business's Strengths	The finest manufacturer of panel radiators for electrical equipment possessing in all of Japan. The products are all designed in-house and manufactured with equipment designed in-house as well. We ensure a stable delivery of goods to large electrical equipment companies who are provide equipment to power utilities. As a component maker, our advanced products and productive technologies are highly valued by our clients. Creating better components enables are more stable electric supply, and we play a great part in the development of Japan's power infrastructure.
Expected Qualities	Someone who can become a technical expert in manufacturing in Japan or Thailand with a global outlook.
Expected Future (Duties , specialization and expectations upon hiring)	Mainly machine design and manufacturing. The applicant will look into the production system and work to improve the production line on many different points to increase efficiency and lower cost. If necessary, the applicant will also participate in the creation of new production lines and factories. Furthermore, as a coordinator between the product technology (design) division and the production site, the applicant will be involved in the re-adjusting of the operation and manufacturing processes as well as personnel arrangement.
Working conditions (as of 2019)	Entry Pay: From 210,000 yen Allowances: Spouse allowance, family allowance, commute allowance, living allowance Raise: Once a year (April) Bonus: Twice a year (July, December) Days off: 109 during the year Benefits: Unemployment insurance, work insurance, health insurance, pension insurance, retirement allowance mutual aid system (with 3 or more years of employment)
